

A FAST, PROVEN WAY TO INCREASE GUEST SATISFACTION & SET YOUR PROPERTY APART.

The convenience & technology guests want without the technical expertise.

KEY BENEFITS

- Convenient for guests
- User-friendly interface
- 24/7 technical support
- Secure from viruses and content filtering
- Proven revenue generator

Today's guests want to stay productive and connected at every turn, and hotels that enable them to do so win. This is what Lobby PC™, the industry-leading all-in-one computer system from iBAHN®, is all about.

With Lobby PC, your property is distinguished by offering the latest guest "must have"—a secure high-speed Internet access station in your lobby, reception or business area. And what's more, no technical expertise is required. All you need is an Internet connection and you're ready to go.

PROVEN & PREFERRED THE WORLD OVER

Unlike other off-the-shelf solutions, Lobby PC from iBAHN is tried and true, having been installed in more than 1,000 exclusive hotels worldwide.

With Lobby PC, your property will enjoy such feature-rich benefits as:

- **Convenience:** Lobby PC is a wired or wireless solution—giving guests a one-stop place to check email, flight status, work and more.
- **Simplicity:** Easy-to-use interface, quality software and hardware make Lobby PC the easiest guest benefit ever offered. What's more, remote updates make sure your Lobby PC has the latest software.
- **Support:** 99.8% of Lobby PC users connect without any Helpdesk support. But just in case, support is always available, 24/7.
- **Security:** Each Lobby PC comes with anti-hacking, virus protection, content filtering and local firewall features. For added security, the PC erases all content after each user logs off.
- **Increased Revenue Potential:** Charge guests for usage (via credit or pre-paid card purchase options) by selecting one of several available business models.

"Thank you for introducing us to the iBAHN Lobby PC. Our guests appreciate its availability and ease-of-use. It's helped us meet the growing demand for wireless high-speed Internet access by our guests."

John F. Weit,
General Manager
Marriott Atlanta Airport
